MFG Tray Co. Nest & Stack Containers are made to be strong and durable. The nest and stack design saves you valuable space: stack when full, nest when empty. Formulations offered are designed for chemical resistance, autoclavability, flame retardant, food handling, degreaser resistance, and ESD protection, as well as the basic formulation for general purpose use. MFG Tray Co offers the widest range of composite nest & stack boxes available. Each box has a lid to protect parts from dirt and damage, and dollies to provide easy movement in your facility.
