

Composite Starch Trays for Moguls

Made of reinforced composite material, MFG Starch Trays offer these advantages:

- Have no sharp corners or crevices to hold starch or moisture.
- Remains rigid and yields an outstanding imprint.
- Uniform size and dimensional stability allow increased mogul speeds for increased throughput and efficiency
- Enhances the operation of NID, Makat, Winkler & Dunnebier, and National moguls.
- Meets NSF Standard No. 2 for cleanability and design.
- All ingredients used in the manufacture are listed in the Title 21, Code of Federal Regulations of the FDA and are accepted for direct food contact.
- They withstand temperatures of -26° C (-60° F) to 121° C (+250° F).
- Can easily be cleaned in a power washer
- Sizes to fit both regular and jumbo moguls
- Independently tested and certified per EEC Directives 2002/72/EC & amendments up to 2005/79/EC for global migration.
