MANUFACTURING SOLUTIONS USING COMPOSITE MATERIAL

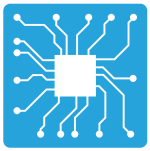
MFG TRAY

NEW! ULTRA-LITE COMPOSITE MATERIAL

- 40% lighter than standard FRP
- More ergonomic handling
- Impervious to most cutting oils, mild acids, and alkaline solutions
- Available on a variety of MFG products

X-Dtect™ COMPOSITE MATERIAL

- X-Ray detectable material
- Product recall and protection
- Contaminant detection down to 1 cubic mm
- Available on a variety of MFG products



FIBRESTAT COMPOSITE MATERIAL

- ESD Safe material
- ANSI/ESD S20.20 standard for ESD protection
- Surface resistivity of 10^5 to 10^{11} ohms/square
- pH rating from 3.0 0 10.0
- Available on a variety of MFG products

VERTICAL FARMING HYDROPONICS

- Customizable solutions for your farm system
- Increase dry room efficiency
- Resists odors, chemicals, and mildew
- Won't bed, dent or corrode
- Wide variety of designs

CALL US FOR YOUR NEXT PROJECT

MFG Tray develops customized solutions for specific material-handling challenges and applications. Customers are encouraged to contact MFG Tray to discuss any unique handling and design requirements.

Reinforced composites bring a new level of performance to material handling. Our trays and containers will work harder, and smarter for you. **Trust MFG Tray for your tough jobs.**
